

PLANNING AND ZONING COMMISSION
STAFF REPORT

November 16, 2006

RZ 06-42: Copperfield Subdivision - Phase 10E

- CASE DESCRIPTION:** change the zoning classification from 'RD-5' Residential District - 5000 to 'RNC' Residential Conservation District.
- LOCATION:** 27 lots generally situated on Draycott Court, intersecting with the southeast end of Canterbury Drive in northeastern Bryan, Brazos County, Texas
- LEGAL DESCRIPTION:** all lots in the Copperfield Subdivision – Phase 10E, Bryan, Brazos County, Texas
- EXISTING LAND USE:** single family residences
- APPLICANT(S):** City of Bryan (by petition of property owners in this subdivision phase)
- STAFF CONTACT:** Julie Fulgham, Staff Planner
- SUMMARY RECOMMENDATION:** Staff recommends **approving** 'RNC' zoning on all land encompassed within this request

BACKGROUND:

Property owners within the Copperfield Subdivision-Phase 10E have submitted a complete petition for a City-initiated zoning change from 'RD-5' Residential District – 5000 to 'R-NC' Residential Neighborhood Conservation District on all 27 lots in this subdivision phase. The subdivision plat for this phase of this subdivision was recorded in April of 2000. All of the lots in this subdivision phase are developed with single-family homes.

ANALYSIS:

In making its recommendation regarding a proposed zoning change, the Planning and Zoning Commission shall consider the following factors.

1. Whether the uses permitted by the proposed change will be appropriate in the immediate area concerned; relationship to general area and the City as a whole.

Staff contends that 'R-NC' zoning for this subdivision phase appears to conform to the intent and purpose of this zoning classification, which is designed to preserve, protect and enhance the character of established residential neighborhoods, by limiting the number of unrelated individuals that may occupy a single dwelling unit to two.

2. Whether the proposed change is in accord with any existing or proposed plans for providing public schools, streets, water supply, sanitary sewers, and other utilities to the area and shall note the findings.

Changing the zoning designation for Copperfield Subdivision - Phase 10E to 'R-NC' District will not affect any public improvements.

3. The amount of vacant land currently classified for similar development in the vicinity and elsewhere in the City, and any special circumstances which may make a substantial part of such vacant land unavailable for development.

There is currently little vacant land zoned 'RN-C' District in this vicinity or elsewhere in the City.

4. The recent rate at which land is being developed in the same zoning classification as the request, particularly in the vicinity of the proposed change.

Staff contends that there appears to be a high demand to rezone lots in established residential neighborhoods to 'R-NC' District.

5. How other areas designated for similar development will be, or are unlikely to be affected if the proposed amendment is approved, and whether such designation for other areas should be modified also.

If the proposed zoning change were approved, staff believes there to be few, if any, affects on other areas designated for similar developments.

6. Any other factors affecting health, safety, morals, or general welfare.

Staff does not believe this proposed zone change would adversely affect health, safety, morals, or general welfare.

RECOMMENDATION:

Staff recommends **approving** 'R-NC' zoning for this entire subdivision phase, as requested.
